Dear Mr. Stiles:

Thank you for your recent submittal of the Resource Recovery Committee's (RRC) Checklist for municipal solid waste (MSW) facility permits and registrations in the Alamo Area Council of Governments (AACOG) region.

At its January 5, 2011 committee meeting, the RRC considered your proposal and subsequently voted to approve your request for a letter stating the proposed Municipal Solid Waste Type I Landfill Permit to be located in Guadalupe County by Post Oak Clean Green, Inc. is consistent with the current AACOG Regional Plan.

On January 26, 2011, AACOG's Board of Directors considered and accepted the recommendation from the RRC. Please accept this letter as official notice from AACOG, its Board of Directors and Regional Review Committee for inclusion in your application to the Texas Commission on Environmental Quality.

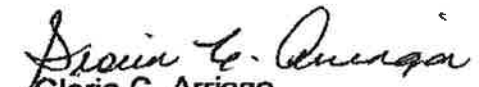

In addition, after submission of your MSW facility registration and permit application to the Texas Commission on Environmental Quality (TCEQ), a copy of Parts I and II of the application will be placed at AACOG for review by anyone who may wish to do so.

We wish you the best of luck with the application process.

Sincerely,

Following TCEQ's guidelines, rules and regulations will ensure a safe and environmentally sound landfill site.

Please do not hesitate to contact me, if you have any questions.

Sincerely,

Mike Wiggins
