Is this submittal part of a Consolidated Permit Processing request, in accordance with 30 TAC Chapter 33?

Yes No

If yes, state the other TCEQ program authorizations requested.

Provide a brief description of the portion of the facility covered by this application. For amendments, modifications, and temporary authorizations, provide a brief description of the exact changes to the permit or registration conditions and supporting documents referenced by the permit or registration. Also, provide an explanation of why the amendment, modification, or temporary authorization is requested.

New MSW landfill permit

Does the application contain confidential Material? Yes No

If yes, cross-reference the confidential material *throughout the application* and submit as a separate document or binder conspicuously marked "CONFIDENTIAL."

Alternative Language Notice Instructions

For certain permit applications, public notice in an alternate language is required. If an elementary school or middle school nearest to the facility offers a bilingual program, notice may be required to be published in an alternative language. The Texas Education Code, upon which the TCEQ alternative language notice requirements are based, trigger a bilingual education program to apply to an entire school district should the requisite alternative language speaking student population exist. However, there may not exist any bilingual students at a particular school within a district which is required to offer the bilingual education program. For this reason, the requirement to publish notice in an alternative language is triggered if the nearest elementary or middle school, as a part of a larger school district, is required to make a bilingual education program available to qualifying students and either the school has students enrolled at such a program on-site, or has students who attend such a program at another location in satisfaction of the school's obligation to provide such a program as a member of a triggered district.

If it is determined that an alternative language notice is required, the applicant is responsible for ensuring that the publication in the alternate language is complete and accurate in that language. Electronic versions of the Spanish template examples are available from the TCEQ to help the applicant complete the publication in the alternative language.

Alternative Language Notice Application Form:

Alternative language notice confirmation for this application:

1. Is a bilingual program required by the Texas Education Code in the school district where the facility is located? YES NO

(If NO, alternative language notice publication not required)

2. If YES to question 1, are students enrolled in a bilingual education program at either the elementary school or the middle school nearest to the facility? YES NO

(IF YES to questions 1 and 2, alternative language publication is required; If NO to question 2, then consider the next question)

3. If YES to question 1, are there students enrolled at either the elementary school or the middle school nearest to the facility who attend a bilingual education program at another location? YES NO

(If Yes to questions 1 and 3, alternative language publication is required; If NO to question 3, then consider the next question)

4. If YES to question 1, would either the elementary school or the middle school nearest to the facility be required to provide a bilingual education program but for the fact that it secured a waiver from this requirement, as available under 19 TAC '89.1205(g)?
 YES NO

(If Yes to questions 1 and 4, alternative language publication is required; If NO to question 4, alternative language notice publication not required)

If a bilingual education program(s) is provided by either the elementary school or the middle school nearest to the facility, which language(s) is required by the bilingual program?

SPANISH

Note: Applicants for new permits and major amendments must make a copy of the administratively complete application available at a public place in the county where the facility is, or will be, located for review and copying by the public.

C. Maps

General

For permits, registrations, and amendments only, submit a topographic map, ownership map, county highway map, or a map prepared by a registered professional engineer or a registered surveyor which shows the facility and each of its intake and discharge structures and any other structure or location regarding the regulated facility and associated activities. Maps must be of material suitable for a permanent record, and shall be on sheets 8-1/2 inches by 14 inches or folded to that size, and shall be on a scale of not less than one inch equals one mile. The map shall depict the approximate boundaries of the tract of land owned or to be used by the applicant and shall extend at least one mile beyond the tract boundaries sufficient to show the following:

each well, spring, and surface water body or other water in the state within the map area; the general character of the areas adjacent to the facility, including public roads, towns and the nature of development of adjacent lands such as residential, commercial, agricultural, recreational, undeveloped, etc;

the location of any waste disposal activities conducted on the tract not included in the application; and

the ownership of tracts of land adjacent to the facility and within a reasonable distance from the proposed point or points of discharge, deposit, injection, or other place of disposal or activity.

There are no other on-site waste disposal activities within the proposed permit boundary that are not included in this application. This note is included on Figure 5 in Part II.

General location maps

For permits, registrations, and amendments only, submit at least one general location map at a scale of one-half inch equals one mile. This map shall be all or a portion of a county map prepared by Texas Department of Transportation (TxDOT). If TxDOT publishes more detailed maps of the proposed facility area, the more detailed maps shall also be included in Part I. Use the latest revision of all maps.

See Part II, Figure 1

Land ownership map

Provide a map that locates the property owned by adjacent and potentially affected landowners. The maps should show all property ownership within 1/4 mile of the facility, on-site facility easement holders, and all mineral interest ownership under the facility.

See Part II, Figure 5

Landowners list

Provide the adjacent and potentially affected landowners' list, keyed to the land ownership map with each property owner's name and mailing address. The list shall include all property owners within 1/4 mile of the facility, easement holders, and all mineral interest ownership under the facility. Provide the property, easement holders', and mineral interest owners' names and mailing addresses derived from the real property appraisal records as listed on the date that the application is filed. Provide the list in electronic form, as well.

List is included on Figure 5 in Part II.

D. Property owner information

For permits, registrations, amendments, and modifications that change the legal description, a change in owner, or a change in operator only, provide the following:

(1) the legal description of the facility;

- (A) the abstract number as maintained by the Texas General Land Office for the surveyed tract of land;
- (B) the legal description of the property and the county, book, and page number or other generally accepted identifying reference of the current ownership record;
- (C) for property that is platted, the county, book, and page number or other generally accepted identifying reference of the final plat record that includes the acreage encompassed in the application and a copy of the final plat, in addition to a written legal description;
- (D) a boundary metes and bounds description of the facility signed and sealed by a registered professional land surveyor;
- (E) on-site easements at the facility, and
- (F) drawings of the boundary metes and bounds description; and

The legal description of the permit boundary is included in the form of a Survey Drawing and accompanying field notes in Attachment 1, Appendix 1A of Part II.

(2) a property owner affidavit signed by the owner.

E. Legal authority

Provide verification of the legal status of the owner and operator, such as a one-page certificate of incorporation issued by the secretary of state. List all persons having over a 20% ownership in the proposed facility.

See Part II, Attachment 2, Appendix 2A for Secretary of State documentation of Post Oak Clean Green, Inc. and facility ownership.

Indicate Ownership status of the facility:

Post Oak MSW Landfill
Type I MSW Landfill Permit Application

Part I Addendum
TCEQ form 0650, Part I Application
List of Other Permits

§305.45(a)(5) ACTIVITIES REQUIRING A PERMIT

The applicant, Post Oak Clean Green, Inc. will operate a Type I Municipal Solid Waste Landfill at the site in Guadalupe County, Texas. In accordance with state and local regulations, the following permits will be required for these operations:

- A Type TCEQ MSW Permit is required for landfill facility development and operation. Parts I and II of an application for MSW Permit Number 2378 were submitted to the Texas Commission on Environmental Quality (TCEQ) on December 27, 2011; Parts III and IV were in a submittal dated October 11, 2013; and all four parts were consolidated in a submittal dated November 7, 2013.
- The grading and drainage modifications will require a U.S. Army Corps of Engineers (USACE) 404 permit. The USACE permit application was submitted on December 19, 2011. The permit application was assigned project number SWF-2011-00192 by the USACE. The USACE published the public notice for the permit application on February 27, 2012.
- The operation of the MSW landfill will require a certification to operate under the Air Quality Standard Permit from the TCEQ.
- The construction road improvements at the access point to the facility on FM 1150 will require a driveway permit and the approval of the Texas Department of Transportation (TxDOT).
- The discharge of stormwater from the site will require an authorization from the TCEQ to operate under the Multi-Sector General Permit of the Texas Pollutant Discharge Elimination System (TPDES). A Storm Water Pollution Prevention Plan (SWPPP) will be prepared and a Notice of Intent to comply with TPDES General Permit TXR050000 relating to stormwater discharge associated with industrial activity (Multi-Sector General Permit (MSGP)). Waste will not be received at the facility until all required TPDES authorizations are received.
- The drilling of a water well on the site for the production of working water and the drilling of monitoring wells will require well permits and registration from the Guadalupe County Groundwater Conservation District.
- The installation of an on-site sewage facility (septic tank) for the site office will require a permit from the Guadalupe County Environmental Health Department.
